Grading rules

• Cut on a band saw to ± ¼ inch, square to the blade. No diagonal cuts.
• Thickness judged against a photographed reference standard. A 6 inch stick under ½ inch through the middle is rejected, not downgraded.
• Braided sticks are three pizzles twisted together before drying. Full cane is the whole pizzle, uncut.
• Natural colour from light tan to dark brown. Not bleached, dyed, smoked, coated or irradiated.
• If you have your own grading specification, we pack to it and mark the cartons accordingly.
